BILLING CODE 6717-01-M

Office of Energy Efficiency and Renewable Energy

Energy Efficiency and Water Conservation at Federal Facilities

AGENCY: Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice.

SUMMARY: Today's notice announces the members of the Federal Interagency Energy Policy Committee (656 Committee) as designated by each agency. Section 310 of Executive Order 12902, Energy Efficiency and Water Conservation at Federal Facilities, requires each agency head to designate a senior official, at the Assistant Secretary level or above, to be responsible for achieving the requirements of the Order and appoint such official to the 656 Committee. This notice is being published in the interest of open communication within the Federal Government.

FOR FURTHER INFORMATION CONTACT:

Mark Ginsberg, EE-90, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585, 202-586-5772.

SUPPLEMENTARY INFORMATION: Section 201 of Executive Order No. 12902, 59 FR 11463 (1994), state that the Federal Interagency Energy Policy Committee ("656 Committee") serves as a forum to coordinate issues involved in implementing energy efficiency, water conservation, and solar and other renewable energy in the Federal sector.

The "656" Committee originated from the legislative requirements of Section 656 of the Department of Energy Organization Act, 42 U.S.C. 7266. This Section required the Secretaries of Defense, Commerce, Energy, Housing and Urban Development, Transportation, Agriculture, and the

Interior; the Postmaster General of the United States Postal Service; and the Administrator of the General Services Administration each to designate one Assistant Secretary or Assistant Administrator as the principal energy conservation officer of the respective Department or Administration.

The National Aeronautics and Space Administration, the Veterans Administration (currently the Department of Veterans Affairs), and the Environmental Protection Agency were asked by the Department of Energy to designate an individual of similar status to participate as a member. These 12 agencies consume approximately 98 percent of all Federal energy. The Departments of Education, Health and Human Services, Labor, State, and Treasury were invited to join in October, 1993.

The "656" Committee is chaired by the Assistant Secretary for Energy Efficiency and Renewable Energy, Department of Energy. It meets periodically to provide policy guidance and to review agency progress on Federal energy conservation plans and associated investments. The purpose of the Committee is to strengthen energy conservation programs which emphasize productivity through the efficient use of energy, and concurrently encourage interagency cooperation in energy conservation. It permits top management of the Federal Government to focus attention on the tasks and missions related to National objectives rather than on the tasks of a particular agency.
